Dear Harold,

Enclosed are clippings from the NYT plus a hurried letter to them that I mailed, which I realize has no chance of publication.

I also got a revised title page to the retyping of your TIKKUN article, eliminating all the typos and lining up the pagination to fit the article (I had paginated on the original draft, but the secretary changed the format and did not change the altered pagination.)

WHA-TV continues to be agitated about the corruption in the Warren Commission inquiry. I am puzzled about where they are getting their questions for me, for I had another phone call. I sugested they phone you to reinforce some of what I had told them, but also to serve as a reinforcer of the position they seem to be wanting to take: that the Altgens photograph holds significant information.

Am on the way to class.

Adios
